

One call to lead your business' technology.

SSI Solutions and CPU Technologies Inc. Merge

SSI Solutions (SSI) and CPU Technologies (CPU) are proud to announce the merger of their respective organizations. This merger will involve no reduction of staff. Both companies will continue operations under the SSI Solutions brand, with Alex Webb as CEO. Mike Parisotto and Steve Coutts will continue in their respective management roles within the organization.

Combined, the organization is fully aligned to become the premier IT partner for businesses in Western Canada. This merger allows the corporation the ability to provide improved services and solutions to existing clients as well as the opportunity to continue to grow in Western Canada.

CPU is located in Calgary, Alberta and provides IT Consulting, Web design and database management. SSI is based out of Edmonton, Alberta and supplies an array of Managed IT Services, Web design and Technical Consultation.

Clients will benefit from this partnership as the corporation will be able to deliver more value-added solutions, the highest level of customer service while increasing resources and experience. Partnerships now expand to include Microsoft, Citrix, HP, VMware, Symantec, Okidata, Cisco and Oracle.

For more information on this merger please contact Alex Webb at 1-888-413-8458 ext. 108 or via email awebb@ssi-solutions.com or Mike Parisotto at 1-403-210-2022 ext 23 or via email mparisotto@cpu-technologies.com.
